DIWA TEXTBOOKS

Diwa Textbooks equip students with skills necessary for tertiary education, employment, or entrepreneurship through cross-disciplinary integration, and real-life discussions and activities. With 20% added competencies to exceed the minimum set by the Department of Education, Diwa Textbooks follow the College Readiness Standards of the Commission on Higher Education (CHED).

Diwa Textbooks also promote Information and Communication Technology (ICT) through tech-integrated performance tasks and auxiliary online resources, creating engaging and meaningful learning experiences for well-rounded learners.

Available in
Digital Format

To cater to the different needs of educators and learners alike, Diwa Textbooks come in print and digital (e-book) versions.

With Teacher's
Manual

Additional learning materials for Diwa Textbooks are available at Diwa Learning Town (www.diwalearningtown.com).

Preschool

LEARN AND LEAD SERIES

Early childhood is a crucial stage in the development of 21st-century skills. Give young learners a head start with this series that combines the subject area-based curriculum structure with the integrated thematic approach.

Grade School

Learn and Lead in Science

Learn and Lead in Math

Learn and Lead in English

Learn and Lead in Reading

Learn and Lead in Writing

Matuto at Manguna sa Filipino

Math for Smart Learners

This new series enables students to have better understanding of the applications of mathematics in everyday life while promoting active learning, individually and collaboratively.

English for Smart Learners

In addition to helping students develop competencies in language and communication, this new series also encourages critical-thinking and interactive learning.

Reading for Smart Learners

This new series aims to boost learners' interest and love for reading with award-winning literary and informational text that adhere to the Lexile® Framework.

Available in Print & Digital Format

Additional learning materials for Diwa Textbooks are available at Diwa Learning Town (www.diwalearningtown.com).

Active Minds

WORKBOOKS
FOR SCIENCE, MATH AND ENGLISH

These instructional materials complement Diwa Textbooks and help keep learners engaged.

Active Minds Science contains performance tasks with real-world applications.

Active Minds Math features drills that can be used for practice and review.

Active Minds English promotes mastery of reading and writing skills.

Junior High School

Practical Science

This notable textbook series develops scientific literacy among learners with enrichment topics and activities that guide them in crafting their investigatory projects.

Practical Math

With the goal of enabling self-assessment of learning progress, this series lets students explore mathematical concepts with experiential, situated, and cooperative learning.

Practical English

To reimagine the way language is taught, this series integrates gamification and other teaching approaches that enhance students' engagement and motivation in learning.

Practical MAPEH

This series lets learners gain a deeper appreciation for music, arts, physical education, and health through localized activities and integration with other disciplines.

Science in Action

These bestselling textbooks cultivate learners' interest in science and technology from a young age by connecting concepts in chemistry, biology, physics, and Earth science and astronomy to real-life situations.

Bayanihan

Pinapalawak ng seryeng ito ang pag-unawa ng araling panlipunan sa pamamagitan ng paghubog ng mga asal, gawi, at kasanayan na makatutulong upang maging makatao at makabansa ang mga mag-aaral.

Kasanayan sa Filipino

Tinuturuan ng seryeng ito ang mga mag-aaral na maging mapanuri sa iba't ibang panitikan, at linangin ang kanilang mga kasanayan sa pakikinig, pagasasalita, pagbabasa, at pagsusulat sa Filipino.

MAPEH Works!

Aside from encouraging appreciation for music, arts, physical education, and health, this series also caters to the interests, potentials, and capabilities of different types of learners.

Filipino ng Lahi

Binibigyang halaga ng seryeng ito ang pagsasakonteksto ng mga aralin sa mga isyung pangkasalukuyan upang ipabuti ang kasanayan ng mga mag-aaral sa komunikasyon at pananaliksik.

Paglinang sa Kasaysayan

Layunin ng seryeng ito na hubugin ang pandaigdig na kamalayan ng mga mag-aaral sa pamamagitan ng karanasan, pagsisiyasat, pagtutulungan, pagninilay, at pag-uugnay.

- Grade 7: Araling Asyano
- Grade 8: Kasaysayan ng Daigdig
- Grade 9: Ekonomiks
- Grade 10: Kontemporaneong Isyu

In Focus Series

This series promotes a more holistic understanding of Social Studies by incorporating other learning philosophies and theories in order to cultivate a global mindset in students.

- Grade 7: Asian Studies in Focus
- Grade 8: World History in Focus
- Grade 9: Economics in Focus
- Grade 10: Contemporary Issues in Focus

TLE for Lifelong Learning

These textbooks ignite students' interest in the fields of technology and livelihood education with case studies that show practical applications of lessons for personal and professional use.

Available in Print & Digital Format

Dynamic Minds

WORKBOOKS

FOR SCIENCE, MATH AND, ENGLISH

These additional instructional materials augment lessons and further develop needed 21st-century skills.

Dynamic Minds Science

contains performance tasks integrated with Information and Communication Technology.

Dynamic Minds Math

features drills that hone aptitude in problem-solving.

Dynamic Minds English

promotes mastery of communication-related skills.

DIWA CHECKBOX

The **GAMIFIED ASSESSMENT PORTAL** that develops mastery for grade school and junior high school students!

IT'S FOR STUDENTS!

- Answer drills from your Diwa Textbooks in **Textbook Activities**
- Level up with ready-made adaptive curriculum-based topics in **System Assigned Tests**
- Find drills and exercises assigned by your teachers in **My Tests**
- Compete for the top spot and dominate the **Leaderboard**

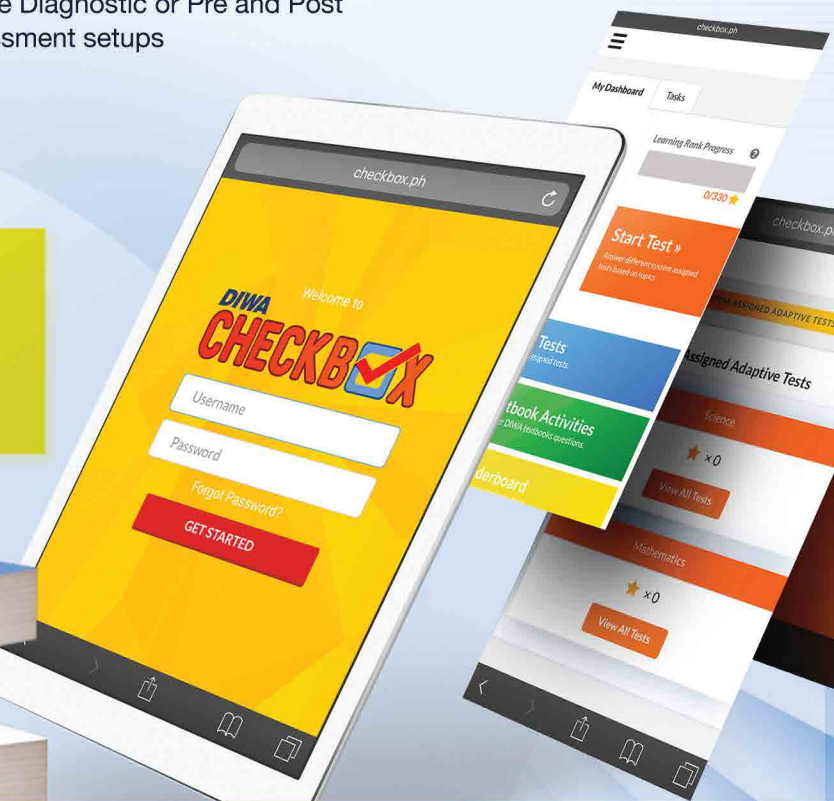

IT'S FOR TEACHERS!

- Get access to thousands of questions in the **Question Bank**
- Make your own standard exams and exercises in **Tests**
- Create tailored drills based on your students' abilities in **Adaptive Tests**
- Get real-time insights about your students' performance in **Reports**
- Create Diagnostic or Pre and Post assessment setups

IT'S FOR SCHOOL ADMINISTRATORS!

- Provide your teachers and students with a blended learning environment
- Promote an efficient and effective way for your teachers to develop assessment strategies
- Monitor and manage your students' learning progress

CHECKBOX IS ALIGNED WITH THE K-TO-12 CURRICULUM!

Corinthian School of Valenzuela City Implements Meaningful Student Assessments

Assessment tools play a critical role in the teaching and learning process. It allows educators to gain insight into whether or not their educational standards and objectives are met. It also helps them identify topics and skills which their students are learning progressively, and those with which they still struggle.

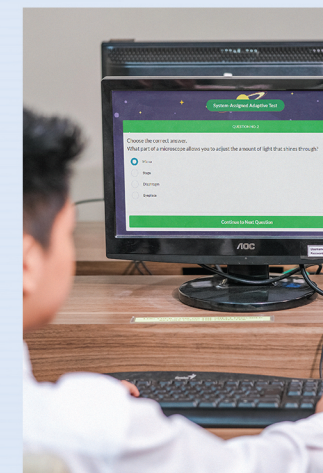

Determined to give their learners more opportunities to enhance their academic performance, the Corinthian School in Valenzuela City introduced their students to Checkbox, a gamified online assessment portal created by Diwa Learning Systems Inc. (Diwa) that helps students develop mastery in core subjects.

Ms. Edellita Alacapa, High School Vice Principal of Corinthian School, shared that their school is always on the lookout for technologies that will support new and unique ideas in instructional techniques.

"We are open to any changes that will help teachers deliver good services in terms of education. We are impressed with how Checkbox, through its features, can make for an effective and efficient blended learning environment that benefits students, teachers, and school administrators alike."

Ms. Edellita Alacapa, High School Vice Principal of Corinthian School

Designed for grade school and junior high school students, Checkbox features a vast collection of drills and activities for Science, Mathematics, English, Filipino, and Araling Panlipunan—all aligned with the K-to-12 curriculum. Like all of Diwa's educational resources, the content of Checkbox is developed by subject area specialists and practitioners from the country's most renowned educational institutions.

For Corinthian School, there are designated days in the week where Checkbox is used. Students are assigned to answer adaptive activities and drills in a particular subject for one hour. After that, the teacher determines who among the class gets the highest number of points. This is done to inspire students to level up and obtain a higher learning rank in the system.

Mr. John Paul Hallasgo, a grade 9 teacher, observed how Checkbox has helped his students stay ahead of their lessons.

"Some of the questions that students answer [in Checkbox] have not been tackled in class, so students get more insights that prepare them for upcoming lessons and discussions," Hallasgo shares.

Meanwhile, to instill the value of self-directed learning among students, Corinthian School encourages its Checkbox users to continue answering drills outside the classroom since it can be accessed anytime, anywhere, and on any device.

"Sometimes, when we need a reviewer, we go to Checkbox because the questions are already there," says Maxinne Concepcion, a grade 9 student. "Even when we're just using it to pass time, we get a lot of information in Science so it enhances our knowledge in the field."

For each activity answered, students earn stars that determine their spot in the leaderboard, which shows their standing per class and their ranking for the entire grade level. The gamified nature of Checkbox makes the learning process more fun and engaging for students of Corinthian School.

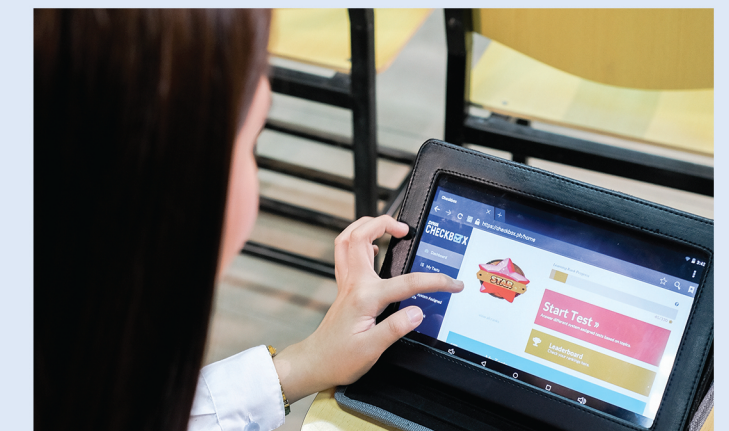

Aside from getting access to thousands of readily available questions classified per topic and competency, teachers can also craft their own standard exams and drills that are tailored to their students' learning abilities. They can even share their own creations with other faculty members within the school system. Because of Checkbox, teachers have a new tool that complements their traditional oral

and written assessment strategies.

With Checkbox, developing feedback mechanisms and assessment strategies have never been easier as it provides teachers a platform where they can share diagnostic feedback to students, evaluate their progress, and set standards for future discussions and activities.

What makes the whole Checkbox experience more worthwhile is that Diwa gives student orientations and teacher trainings so that all concerned stakeholders including school administrators are guided every step of the way. These training programs follow a wide-ranging and effective training curriculum, and are conducted by Diwa's e-Learning Specialists.

Indeed, by using Checkbox as a learning tool, schools and educators can ensure that their learners' needs for subject mastery are better addressed. To learn how to bring Checkbox to your school, contact Diwa at (02) 893 8501 or email info@diwamail.com.

in partnership with

of Switzerland

Give your Senior High School Students a unique work simulation experience with Business Weeks!

With Business Weeks, your students will:

- ✓ learn how to manage a company,
- ✓ understand concepts in finance, production, marketing, human resources, and operations; and
- ✓ develop a healthy attitude towards work.

SUPPLEMENTAL EDUCATIONAL MAGAZINES (SEMs)

Supplemental Educational Magazines (SEMs) provide a welcome break from everyday classroom learning by sparking new ideas and inspiring deeper investigation.

For students, SEMs provide new information and updates across different subject areas. SEMs encourage student participation in relevant social issues and awaken their curiosity and awareness towards national and global concerns.

For teachers, SEMs help save time in doing research to be able to design effective learning experiences. SEMs also come with Teacher's Guide and Editorial Content to help facilitate lessons.

For schools, SEMs could help in securing PAASCU accreditation. SEMs also provide avenues to integrate Information and Communication Technology in the classroom.

Digital editions of Supplemental Educational Magazines, as well as additional interactive learning materials, are available at www.diwalearningtown.com.

BATO BALANI FOR SCIENCE AND TECHNOLOGY TURNS 40!

Bato Balani celebrates 40 years of igniting students' appreciation and love for science and technology. With features on technological advancements, medical breakthroughs, environmental issues, and more, there is no shortage of information for teachers to impart and for students to explore. And because the magazine also shines a spotlight on research, investigatory projects, experiments, and inventions made by students, it inspires young readers to hone their skills in problem-solving, critical thinking, creativity, and inventiveness.

This is why Bato Balani remains to be the leading science magazine for basic education in the country. From being the first supplemental educational magazine in the market, then welcoming digital at the turn of the 21st century, to its first foray into augmented reality, Bato Balani for Science and Technology is truly a champion for innovation in education.

What are your fondest memories or unforgettable experiences using Bato Balani for Science and Technology?

Do you have a Bato Balani story to share? Message us on our Facebook page (facebook.com/diwalarningsystems) and get a chance to be featured in our upcoming publications!

Science and Technology for Everybody

"Diwa never fails to send copies of Bato Balani to our school Mangyan Education Center in Mindoro. I am so grateful for that, since our students enthusiastically use those for research as well. You see, we have limited resources in the library. At the end of the school year, my 10th graders would request if they can have some copies of old issues of Bato Balani as reading materials at home. Such desire and passion to read touched my heart. After the summer break, the parents of those 10th graders would come to return the materials their children borrowed saying, "Magagamit pa po ng mga ibang bata. Salamat po." Such generosity and support of parents for the education of their children is truly unparalleled. Adok pagsalamat, Diwa."

— **Carole Diamante**, 61, former Mangyan Education Center principal, Consultant for Indigenous Affairs, Asian Development Bank

"I kept a collection of [Bato Balani magazine] before. I love how it makes science exciting. I literally grew up with it. I love the drawings and the science facts. Been reading it since my elementary years."

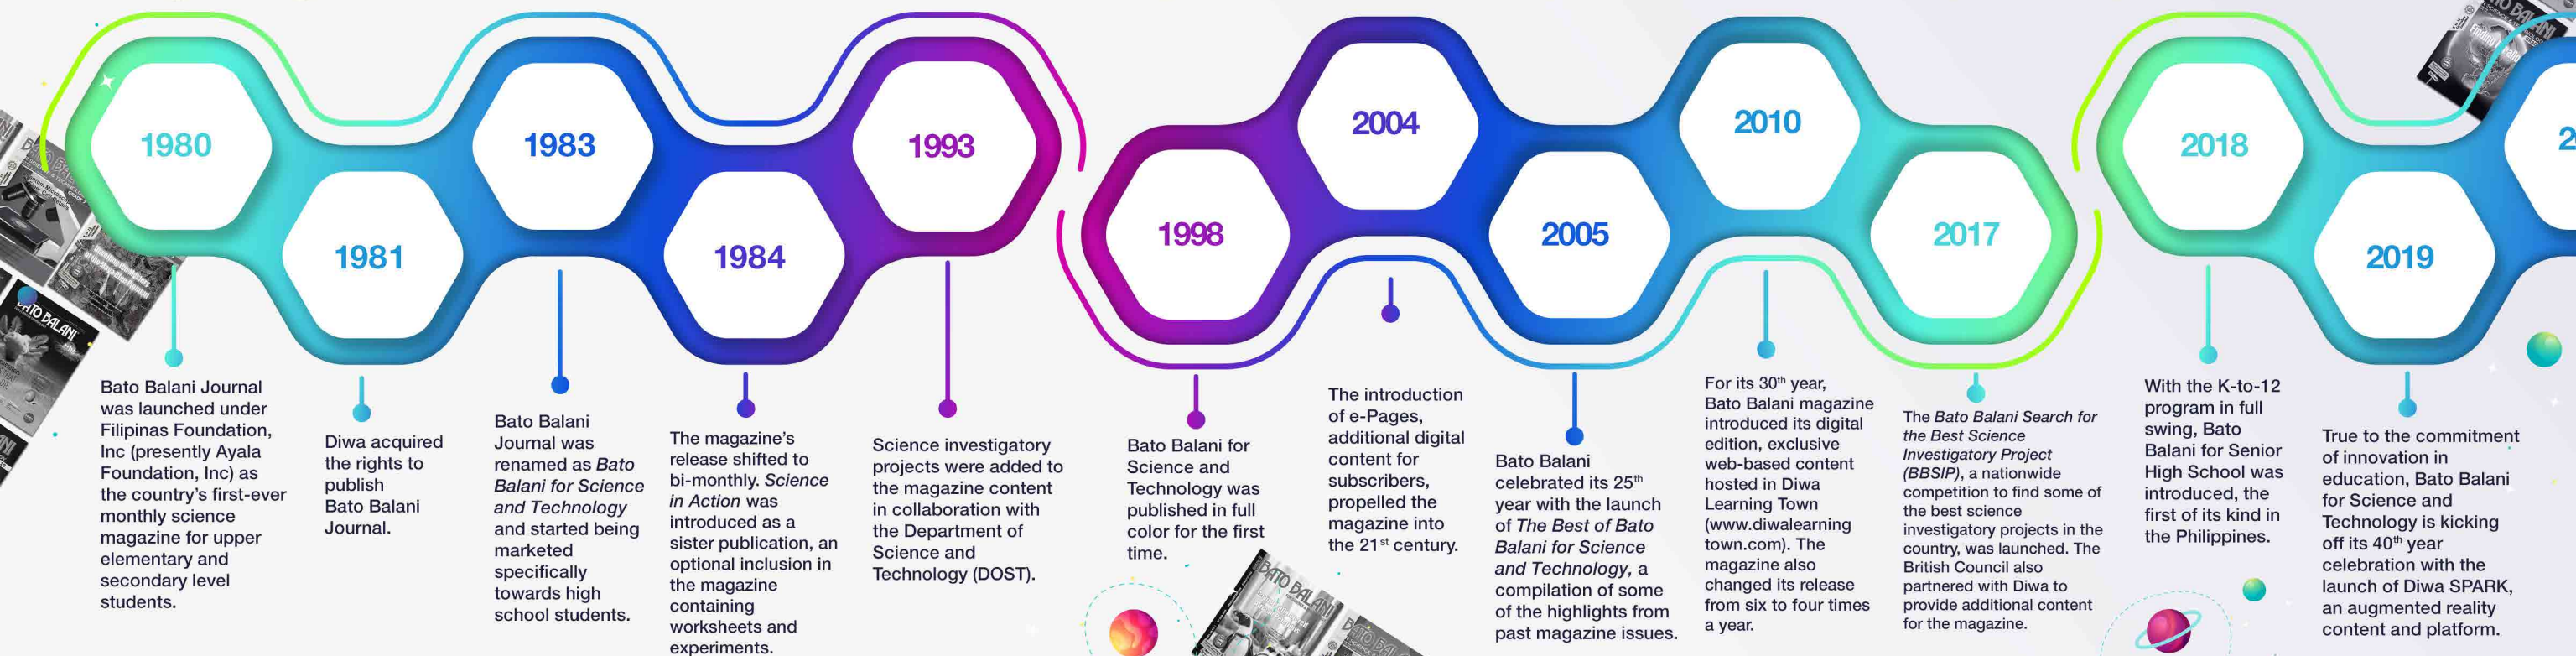

— **Robert John Donesa**, 43, lawyer, College President, Baliwag Polytechnic College

"I grew up with Bato Balani. We used it as a learning supplement in elementary and high school. It sparked my interest in Science, particularly in natural history."

— **Aimee Lynn Dupo**, PhD, 41, entomologist, Professor 3, University of the Philippines Los Banos

Highlights of Bato Balani's Forty Years

Bato Balani for Science and Technology stands the test of time by constantly innovating in order to elevate the teaching and learning experience.

Let's get digital with Genyo e-Learning,

the e-Learning program of choice of hundreds of innovative schools nationwide!

NOW WITH TWO NEW ADD-ONS

that help foster an innovative teaching and learning environment!

GENYO DIY ROBOTICS

Balance theory and practice through this progressive and holistic robotics program that comes complete with student and teacher modules consisting of lecture discussions, ready-made lesson packages, and laboratory applications.

DIWA VIRTUAL FIELD TRIPS

Give students and teachers the opportunity to expand the four walls of the classroom and reinforce lessons with virtual reality.
